

Teaming Up!

We are a personal training studio who firmly believes not only in well-being but in community and helping out people in need. We are holding a 12 hour Spin-A-Thon on September 11th as a fundraiser for the Bissell Center. This fundraiser will be open to 9 teams of "Spinners" and will collect clothes/cash donations/household items etc, for the Center.

We are teaming up with the Bissell Center simply because it stands for what we believe in. Neighbours Helping Neighbours. This wonderful organization is for non-profit and relies on the generosity of others to stay in operation. The Bissell Center offers help to people in need. Let's team up together to help them grow. They are experiencing a major shortage this year and with fall and cold winter days approaching when we run the event, anything will help right now

I urge you to support this amazing event for the community and help Edmontonian's of all ages to stay safe and warm. I believe together we can make this a great success and make the public more aware of the Bissell Center and what they really strive for.

About The Bissell Center

Bissell Centre exists in order to:

- Meet basic daily needs met for those with least access to resources
- Improve the quality of life for those with least access to resources
- Give children living in poverty a chance for a brighter present and future
- Increase the education and awareness of issues of poverty within the greater Edmonton community
